

STAY SAFE IN THE SUN

Did you know....

The Sun travels at 220 km per second.

The Sun is 93 million miles away from the Earth.

1.3 million Earths can fit inside the Sun

The Sun radiates energy mainly as visible light, ultraviolet, and infrared radiation.

Wear a broad hat to protect your head and face.

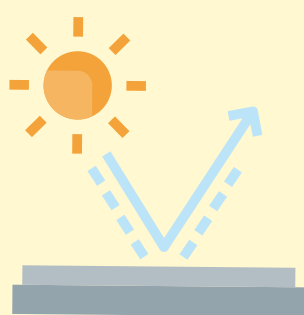

Wear sunglasses to protect your eyes.

Wear protective clothing to protect your skin.

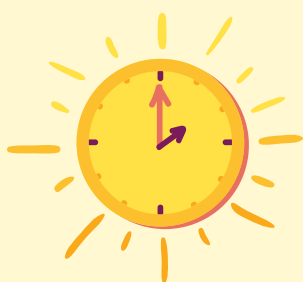

Use sunscreen to protect exposed skin.

Be aware of Sun reflection!

Seek shade and avoid direct sunlight.

Avoid the Sun between 11am and 3pm when it's at its strongest.

Drink plenty of water and stay hydrated!
